DO NOT DISCARD — IMPORTANT Notice Regarding Electricity Rates

Este es un aviso importante. Por favor asegure que se traduce.

Este é um aviso importante. Queira mandá-lo traduzir.

THE CITY OF GARDNER'S COMMUNITY CHOICE POWER SUPPLY PROGRAM

You may be paying too much for your electricity! In November 2017, the City of Gardner launched its Community Choice Power Supply Program. This Program is a municipal aggregation which enables local government to combine the purchasing power of its residents and businesses to provide them with an alternative electricity supply option (M.G.L. c. 164, § 134). The City's current supplier is **First Point Power**.

National Grid has identified your account as either: (1) receiving electricity from a third-party supplier or (2) enrolled in their GreenUp program. The City suggests checking your National Grid electric bill to determine your current supplier and rate (per kWh) as the City's Program may be able to help provide some relief.

The City's aggregation rate is in effect **for all rate classes for 32 months** as follows:

Term	Rate (Supply Only)	Renewable Energy Content
March 2026 to November 2028	\$0.15152 per kWh	Meets MA renewable energy requirements
<i>[Rate applies to service beginning and ending on the days of the month that your meter is read in your service area. This date varies by account.]</i>		

Everyone in City is eligible to join this Program and may OPT-IN at any time. Some suppliers have a termination fee for leaving their contract early. **Please check with your current supplier and confirm that you will not incur an exit fee before enrolling in the City's Program.**

For more detailed information about this Program, including how to OPT-IN, please visit colonialpowergroup.com/gardner or call Colonial Power Group, the City's aggregation consultant, at (866) 485-5858 ext. 1. You may OPT-OUT or OPT-IN at any time in the future with NO CHARGE.

The Community Choice Power Supply Program cannot guarantee future savings against National Grid Basic Service as their rates change twice a year or more, depending on rate class.
