Este é um aviso importante. Queira mandá-lo traduzir.

THE TOWN OF HEATH'S

COMMUNITY CHOICE POWER SUPPLY PROGRAM

The Town of Heath is announcing the new rate and term for its Community Choice Power Supply Program through its new electricity supplier, **Direct Energy Services**. The Town's new aggregation rate is fixed **for all rate classes for 12 months** as follows:

Term	**Current Rate** (Supply Only)	**New Rate** (Supply Only)	**Renewable Energy Content***
December 2026 to December 2027	$0.12804 per kWh	$0.16600 per kWh	Meets MA renewable energy requirements
[Rate applies to service beginning and ending on the days of the month that your meter is read in your service area. This date varies by account.]			
**For a detailed breakdown of MA renewable energy requirements by year, please visit colonialpowergroup.com/massachusetts-renewable-energy-requirement.*			

For comparison purposes, National Grid's Basic Service rates are fixed from August 1, 2026 through January 31, 2027 -- Residential at $0.17185 per kWh and Commercial at $0.15568 per kWh.

No action is required by individual consumers. All accounts currently enrolled in the Town's Program will be switched to Direct Energy as of the December 2026 meter reads. This change will be noted on the December 2026 bills and will be seen on the January 2027 bills. Consumers with questions about the Program should call Colonial Power Group, the Town's aggregation consultant, at (866) 485-5858 ext. 1.

For more detailed information about the Town's Program, including how to OPT-OUT or OPT-IN, or to access National Grid's Basic Service rates, please visit colonialpowergroup.com/heath or call Direct Energy at (866) 968-8065. You may OPT-OUT or OPT-IN at any time in the future with NO CHARGE.

Basic Service rates change twice a year or more, depending on rate class. As a result, the aggregation rate may not always be lower than the Basic Service rate. The goal of the aggregation is to deliver savings over the life of the Program against National Grid Basic Service. However, future savings cannot be guaranteed.
