BECKET ANNOUNCES NEW LOWER RATES AND NEW SUPPLIER FOR ENERGY PROGRAM

BECKET, MA – The Town of Becket has signed a thirty-four month contract with a new supplier, First Point Power. Beginning with the January 2026 meter reads, the Becket Community Choice Power Supply Program will have a new rate of \$0.13042 per kWh. The Program will also continue to offer an optional 100 percent green product, which is derived from National Wind Renewable Energy Certificates (RECs), at a rate of \$0.13142 per kWh.

For Becket residents and businesses who are enrolled in the Town's Program, the current rate of \$0.13849 per kWh will expire with the January 2026 meter reads and the new rate of \$0.13042 per kWh will take effect. This represents a decrease of \$5 per month on the supply side of the bill given average usage of 600 kWh. Additionally, this new rate is 3 percent lower than Eversource's Residential Basic Service rate of \$0.13493 per kWh. Residents can expect to see an average savings of \$3 per month for the month of January 2026. Eversource's Basic Service rates will change on February 1, 2026.

Becket launched its electricity program in January 2021 in an effort to develop an energy program that would be stable, affordable and incorporate renewable energy. From inception through June 2025, the Program has saved residents and small businesses over \$1.4 million in electricity costs as compared to Eversource Basic Service.

It is important to note that no action is required by current participants. This change will be seen on the February 2026 bills. All accounts currently enrolled in the Program will remain with their current product offering and see the new rate and First Point Power printed under the "Supplier Services" section of their monthly bill.

The Becket Community Choice Power Supply Program has no fees or charges. However, anyone switching from a contract with a third-party supplier may be subject to penalties or early termination fees charged by that supplier. Ratepayers should verify terms before switching.

Basic Service rates change twice a year or more, depending on rate class. As a result, the aggregation rate may not always be lower than the Basic Service rate. The goal of the aggregation is to deliver savings over the life of the program against Eversource Basic Service. However, future savings cannot be guaranteed.

Eversource has several programs to help income-eligible families and customers needing special assistance meet their energy needs. To learn more visit eversource.com/content/residential/account-billing/payment-assistance/discount-rate.

Residents may also visit colonialpowergroup.com/becket or call (866) 485-5858 ext. 1 to learn more about Becket's Community Choice Power Supply Program, to opt-in or opt-out, or to change product selection.
