SHELburne ENERGY PROGRAM ANNOUNCES NEW SUPPLIER AND RATES

SHELburne, MA – The Town of Shelburne has signed a thirty-four month contract with a new supplier, First Point Power. Beginning with the January 2026 meter reads, the Shelburne Community Choice Power Supply Program, designed to meet the specific needs of the Town's electricity ratepayers, will continue to offer the same options but at new rates:

- A standard product that meets Massachusetts Renewable Energy Requirement (MA Req) of 69.1% at a rate of \$0.12952 per kWh.
- An optional product that meets MA Req plus an additional 5% Massachusetts Class Renewable Energy Certificates (RECs), at a rate of \$0.13132 per kWh.
- A second optional product that meets MA Req plus an additional 31% Massachusetts Class Renewable Energy Certificates (RECs), at a rate of \$0.14068 per kWh.

For Shelburne residents and businesses who are enrolled in the Town's standard product, the current rate of \$0.14159 per kWh will expire and the new rate of \$0.12952 per kWh will take effect with the January 2026 meter reads. This represents a decrease of \$7 per month on the supply side of the bill given average usage of 600 kWh. In addition, this new rate is 4 percent lower than Eversource's Residential Basic Service rate of \$0.13493 per kWh. Residents can expect to see an average savings of \$3 for the month of January 2026. Eversource's Basic Service rates will change on February 1, 2026.

Shelburne launched its electricity program in August 2020 in an effort to develop an energy program that would be stable, affordable and incorporate renewable energy. From inception through June 2025, the Program has saved residents and small businesses over \$1 million in electricity costs as compared to Eversource Basic Service.

It is important to note that no action is required by current participants. This change will be seen on the February 2026 bills. All accounts currently enrolled in the Program will remain with their current product offering and see the new rate and First Point Power printed under the “Supplier Services” section of their monthly bill.

The Shelburne Community Choice Power Supply Program has no fees or charges. However, anyone switching from a contract with a third-party supplier may be subject to penalties or early termination fees charged by that supplier. Ratepayers should verify terms before switching.

Basic Service rates change twice a year or more, depending on rate class. As a result, the aggregation rate may not always be lower than the Basic Service rate. The goal of the aggregation is to deliver savings over the life of the program against Eversource Basic Service. However, future savings cannot be guaranteed.

Eversource has several programs to help income-eligible families and customers needing special assistance meet their energy needs. To learn more visit eversource.com/content/residential/account-billing/payment-assistance/discount-rate.
