WENDELL ANNOUNCES NEW RATES AND OPTIONS FOR ENERGY PROGRAM

WENDELL, MA – The Town of Wendell has signed a thirty-four month contract with a new supplier, First Point Power. Beginning with the January 2026 meter reads, the Wendell Community Choice Power Supply Program will change its standard product to meet Massachusetts Renewable Energy Requirement (MA Req) at a rate of \$0.12952 per kWh. The Program will also now offer an optional product that uses 100% Massachusetts Class I Renewable Energy Certificates (RECs) at a rate of \$0.15452 per kWh.

For Wendell residents and businesses who are enrolled in the Town's Program, the current rate of \$0.14354 per kWh will expire and the new rate of \$0.12952 per kWh will take effect with the January 2026 meter reads. This represents a decrease of \$8 per month on the supply side of the bill given average usage of 600 kWh. In addition, this new rate is 16 percent lower than National Grid's Residential Basic Service rate of \$0.15484 per kWh. Residents can expect to see an average savings of \$15 for the month of January 2026. National Grid's Basic Service rates will change on February 1, 2026 and should be known in late December.

Wendell launched its electricity program in January 2017 in an effort to develop an energy program that would be stable and affordable. From inception through June 2025, the Program has saved residents and small businesses over \$431,000 in electricity costs as compared to National Grid Basic Service.

It is important to note that no action is required by current participants. This change will be seen on the February 2026 bills. All accounts currently enrolled in the Program will see the new rate and First Point Power printed under the "Supply Services" section of their monthly bill.

Residents who wish to opt-up to the optional renewable product can do so by visiting colonialpowergroup.com/wendell and click the OPT-IN button, then fill out and submit the Opt-In Form OR call First Point Power at (888) 875-1711 and ask to change product selection.

The Wendell Community Choice Power Supply Program has no fees or charges. However, anyone switching from a contract with a third-party supplier may be subject to penalties or early termination fees charged by that supplier. Ratepayers should verify terms before switching.

Basic Service rates change twice a year or more, depending on rate class. As a result, the aggregation rate may not always be lower than the Basic Service rate. The goal of the aggregation is to deliver savings over the life of the program against National Grid Basic Service. However, future savings cannot be guaranteed.

National Grid has several programs to help income-eligible families and customers needing special assistance meet their energy needs. To learn more visit nationalgridus.com/MA-Home/Bill-Help/Payment-Assistance-Programs.

Residents may also visit colonialpowergroup.com/wendell or call (866) 485-5858 ext. 1 to learn more about Wendell's Community Choice Power Supply Program or to opt-in or opt-out or to change product selection.
