WHATELY ENERGY PROGRAM ANNOUNCES NEW SUPPLIER AND RATES

WHATELY, MA – The Town of Whately has signed a thirty-four-month contract with a new supplier, First Point Power. The Whately Community Choice Power Supply Program, tailored to meet the specific needs of the Town's electricity ratepayers, will continue to offer three options, however all three products have changed:

CURRENT PRODUCT OFFERINGS		
STANDARD	OPTIONAL NATIONAL GREEN	OPTIONAL NEW ENGLAND GREEN
\$0.14354 / kWh	\$0.14302 / kWh	\$0.15643 / kWh
5% MA Class I RECs above minimum state requirements	100% renewable; includes additional 38% National Wind RECs	100% renewable; includes additional 38% MA Class I RECs

NEW PRODUCT OFFERINGS		
STANDARD	OPTIONAL GREEN	OPTIONAL GREEN 100
\$0.13045 / kWh	\$0.14068 / kWh	\$0.15452 / kWh
100% renewable; includes additional 38% National Wind RECs	100% renewable; includes additional 38% MA Class I RECs	100% MA Class I RECs

** NOTE: The renewable energy content of all product offerings has changed.*

For Whately residents and businesses who are enrolled in the Town's standard product, the current rate of \$0.14354 per kWh will expire and the new rate of \$0.13045 per kWh will take effect with the January 2026 meter reads. This represents a decrease of \$8 per month on the supply side of the bill given average usage of 600 kWh. In addition, this new rate is 3 percent lower than Eversource's Residential Basic Service rate of

\$0.13493 per kWh. Residents can expect to see an average savings of \$3 for the month of January 2026. Eversource's Basic Service rates will change on February 1, 2026.

Whately launched its electricity program in August 2020 in an effort to develop an energy program that would be stable, affordable, and incorporate renewable energy. From inception through June 2025, the Program has saved residents and small businesses over \$1.0 million in electricity costs as compared to Eversource Basic Service.

It's important to note that no action is required by current participants. This change will be seen on the February 2026 bills. All accounts currently enrolled in the Program will remain with their current product offering (consistent with the chart above, renewable energy content may have changed) and see the new rate and First Point Power under the "Supplier Services" section of their monthly bill.

The Whately Community Choice Power Supply Program has no fees or charges. However, anyone switching from a contract with a third-party supplier may be subject to penalties or early termination fees charged by that supplier. Ratepayers should verify terms before switching.

Basic Service rates change twice a year or more, depending on rate class. As a result, the aggregation rate may not always be lower than the Basic Service rate. The goal of the aggregation is to deliver savings over the life of the program against Eversource Basic Service. However, future savings cannot be guaranteed.

Eversource has several programs to help income-eligible families and customers needing special assistance meet their energy needs. To learn more visit <https://eversource.com/content/residential/account-billing/payment-assistance/discount-rate>.

Residents may also visit <https://colonialpowergroup.com/whately> or call (866) 485-5858 ext. 1 to learn more about Whately's Community Choice Power Supply Program, to opt-in or opt-out, or to change product selection.
