RE: Town of Hinsdale, D.P.U. 25-156

Dear Attorney Considine:

On October 10, 2025, the Town of Hinsdale ("Hinsdale" or "Town"), through its agent Colonial Power Group, Inc., filed with the Department of Public Utilities ("Department") a petition for approval of a municipal aggregation plan ("Plan") pursuant to G.L. c. 164, § 134(a). The Department conducted a public hearing on December 10, 2025, pursuant to an October 23, 2025 notice of filing, public hearing, and request for comments.¹

General Laws c. 164, § 134(a) authorizes any municipality or group of municipalities to aggregate the electrical load of interested customers within its boundaries, provided that the load is not served by a municipal light plant. The Municipal Aggregation Guidelines ("Guidelines") for municipal aggregation plan filings establish the specific requirements for all Plans. Municipal Aggregation Guidelines, D.P.U. 23-67-A (2024). A plan filing that

¹ The Department did not receive any comments.

complies with the Guidelines satisfies the requirements set forth in G.L. c. 164, § 134(a). D.P.U. 23-67-A at 20.

The Department reviews a filed plan to determine whether it includes the information required by the Guidelines (including supplemental information provided by the Town at the request of the Department). Guidelines, Section V.B. If, upon review, the Department finds that a filed plan includes all such information, the Department will approve a plan as filed. Conversely, if the Department finds that a filed plan does not include all the information required by the Guidelines, the Department will not approve such plan and will identify the information such plan must include to warrant Department approval.

Table 1, below, identifies the information required by each section of the Guidelines and the section(s) of the Town's Plan that includes the necessary information.
